CALL FOR PAPERS AND CONTRIBUTIONS

8th International Conference

LEARNING ARCHITECTURE

Serbian Academy of Sciences and Arts, Gallery of Science and Technology
Belgrade, Serbia
4-5 December 2020

STRAND - Sustainable Urban Society Association is delighted to publish the call for papers and contributions for annual Conference ON ARCHITECTURE 2020 at the Serbian Academy of Sciences and Arts, Gallery of Science and Technology.

Submit your application by email at info@strand.rs **closing date 15 June 2020**.

After closing of the abstract submission on 15 June 2020, the paper selection for the 2020 conference will commence. Authors will receive notification of acceptance at the end of June.

Authors of accepted contributions to the conference are expected to register for the conference and present their contribution.
The general call for papers can be found for download at the bottom of this page.
Specific calls for papers of the invited lectures will be added to the web page.

The Association is keen that the papers presented at the Conference address themes of relevance to the learning policy agenda in Europe and worldwide – from a research, policy or practice angle.

Papers that fit within main topics of conference theme and programme areas of interest are very welcome and can be joined as introductory lectures.

Theme

The theme of the 8th International Conference and Exhibition ON ARCHITECTURE, entitled LEARNING ARCHITECTURE follows the basic concept realized and developed at previous conferences of a multidisciplinary approach to the topic of architecture. Whilst extending research and the importance of understanding architecture the Conference theme is exploring UNESCO Learning City platform. Starting from the seventeen sustainable development goals, in particular making cities and human settlements inclusive, secure, resilient and sustainable, the role of architecture is considered as the basic artifact of urban structure.

In all important aspects to understand the contemporary city and the processes that determine it, to consider the position and role of architecture and urban design, as well as the contribution of art and science, through the analysis of best practice that advance the life of the city.

Some key themes that interest the organisers and Programme Committees are:

• Best practices - learning city revitalizes learning in communities, extends the use of modern learning technologies and fosters a culture of learning throughout life
• Modeling the Future - modeling future architecture and design with environmental and social implications,
• Smart Design - in architecture, urban design, street and home furniture, lighting
• Technology and Architecture - how the use of digital technologies transforms the work process (BIM)
• Scientific research and architectural practice
• Innovative solutions in methodological approach and design in the use of materials
• Art as inspiration
• Playing City - gamification in urban design and town planning,
• Innovation in art, architecture, science and technology in the digital age
• Innovation in information technology - improved use and user experience
• Challenges in Architecture and Urban Design - Facing the Climate Crisis, Sustainable Practices

Papers

We welcome papers on research, theoretical approach, and example of project realisation.
Submit your 300 words Abstract before 15 June 2020 by email info@strand.rs

Poster sessions

The option of presenting material in a poster session is also available. Authors can choose the poster session for the presentation of material that would benefit from one-to-one discussion.
Submit your 300 words Abstract before 15 June 2020 by email info@strand.rs.

Exhibition

The Conference topics are also the Exhibition topics. The Exhibition will be held parallel to Conference at Serbian Academy of Sciences and Arts, Gallery of Science and Technology, Belgrade, Serbia, 2-11 December 2020.
Submit your Application before 15 September 2020 by email info@strand.rs including illustration of the work and short description 70 words.

Scientific Board
Professor Branislav Mitrović, Faculty of Architecture, University of Belgrade, Serbia
